Helpful hints to ensure your picture is posted:

1. Take photos of game in the field vs. in the back of the truck.
2. Remove tongue or put it back in the animal's mouth.
3. Wipe off excess blood.
4. Take photo in a manner that avoids showing gaping wounds.
5. Don't sit on the animal.
6. Highlight the harvested game, not the hunter or the hunter's truck.
7. Display antlers so that points and spread are visible.
8. Don't display the animal in any inappropriate manner.
9. Only mature game animals will be posted.
